## **DETAILED ACTION**

## Allowable Subject Matter

Claims 17-34 are allowed.

The following is an examiner's statement of reasons for allowance: The examiner has reviewed the prior art in light of applicant's claimed invention and finds that the claims define over the prior art. The prior art does not disclose or suggest inter alia the limitations of a laser cavity formed between an entry mirror and an exit mirror, and comprising: a substrate made of a doped or undoped active laser material Y3A15012 (YAG) on which a monocrystalline layer of saturable absorbent material made of doped YAG is deposited directly by liquid phase epitaxy, in which both said active laser material, and said monocrystalline layer of saturable absorbent material have the same [100] orientation; wherein said doped or undoped active laser material YAG, said monocrystalline layer of saturable absorbent material made of doped YAG deposited directly on said active laser material by liquid phase epitaxy, and the same specific orientation of both said active laser material [100] and said monocrystalline layer [100] achieves controlled polarization of the laser cavity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should
